ABOUT PSB ACADEMY

Artist impression of our Future Academy

Our Vision

To be the premier tertiary education provider nurturing future talents with global orientation.

Our Mission

PSB Academy is a trusted education provider, committed to providing accessible quality education that nurtures and shapes individuals to enable them to achieve their personal and professional best.

Our Values

Forward Thinking

We are agile, innovative and proactive to be future-ready.

Passion

We deliver our best to help everyone achieve their best.

Excellence

We provide holistic, best-in-class education and development for all.

Nurturing

We foster a caring learning environment by supporting students, staff and partners.

PSB Academy is one of the leading private education institutions of choice in Singapore with more than 50 years of experience in providing high quality education to individuals. Our credence sets us apart to help our students gain an edge in today's workforce.

The degree programmes are offered in conjunction with premier universities from Australia and the United Kingdom. We genuinely believe that a holistic learning environment is key to nurturing well-rounded students. In 2016, the Academy was conferred "Best private education institution in Singapore" by the Business Excellent and Research Group, and was also recognised as the best private school in Singapore for Engineering by JobsCentral Learning. Drawing upon our academic strength of over 300 lecturers, full-time and part-time associates, we deliver inspiring lessons to over 11,000 local and international students. Our diverse and dedicated pool of educators aims to bring out the best in each student, and to equip each one with the knowledge and skills that are relevant to changing industry demands.

Our students have direct access to many student support services. An emphasis of hands-on learning is delivered through our fully equipped computer, engineering and science laboratories. Students can enjoy full recreational facilities on campus and interact within a cosmopolitan student community. From May 2017, students will also have access to a new 100,000 square foot campus in the heart of the city, equipped with large lecture theatres, radio and television studio, and ample breakout spaces. We also have a dedicated student affairs team that organises enriching workshops, industry visits, student projects, camps, and even overseas student exchange programmes to enhance every student's learning journey.

WELCOME MESSAGE FROM DEAN

Dear Student,

Joining Higher Education is a passport to your career and employability. At PSB Academy we are with you on this journey from the moment you make the choice of career pathway, through to the celebration of your success at graduation and beyond. We are committed to your development as a global citizen by providing you with a holistic learning environment that goes further than the boundaries of the classroom and puts you in touch with professionals from your chosen field of study. We take very seriously your career development and employability and deliver a skills-based education which enables you to easily access your dream career.

I am delighted to present to you a variety of courses for your choice which reflect a multidisciplinary nature and the strong partnerships we have with universities of prestige in the United Kingdom and Australia. These courses have been specially designed and/or selected for you to reflect on the subject specialisation for your choice, and more importantly to make you an all rounded professional which is capable of being a problem solver, a creator, and innovator and is not afraid of taking challenges.

At PSB Academy we have a strong relationship with employers and a robust advisory process that ensures that businesses and industry play an active role in our course development and enhancement. We are confident that the courses available to you match closely the needs of industries and businesses to deliver the all-important skills needed by the contemporary workplace environment in Singapore and in your home country.

Our partnerships reflect our mission and values. We are committed to supporting your learning through a caring environment and we actively involve you and your family in your development. Our mission is to see you succeed in achieving great personal and professional goals. We are always with you through alumni reunions, even after you complete your studies at PSB Academy.

Our two campuses present you with a wealth of learning settings which you certainly expect from a high quality reputable private Higher Education Institution. Come and enjoy the cultural diversity that PSB academy has to offer and be not afraid in being inspired by the multitude of professional learning opportunities we offer. Your dream career starts with PSB Academy.

I look forward to meeting you in the near future and welcoming you as one of my students

VIBRANT CAMPUS LIFE

Quality Education and Esteemed Partnerships

At PSB Academy, we believe experience is just as important as knowledge. With more than 50 years of applied experience, we possess both knowledge and practical experience to provide education in its highest quality for all our students. We aim to deliver quality programmes in partnership with renowned universities to ensure our students are fully prepared to respond to challenges of the real world with ideas that are fresh, practical and relevant. We offer various certificates, diplomas, undergraduate and postgraduate programmes across multi-disciplines: Accounting and Finance, Business Communications, Engineering and Technology, Life and Physical Sciences and English Language.

Modern City Campus

PSBAcademy@Delta is our full-fledged campus; our 300,000 sqft full-fledged campus is easily reachable by foot in 3 mins from Tiong Bahru MRT Station. It is also surrounded by a shopping mall and eateries, which offer local delights. To extend the convenience to our students as our capacity grows, we also have a city campus, PSBAcademy@MarinaSquare, located near City Hall, Esplanade and Promenade MRT Stations.

Vibrant Campus Life

Student life at PSB Academy is everything but boring! Our students work hard and play hard together; the meeting of minds is more than just being friends. Students are trained to have a global mindset beyond the classrooms. Through our student council, students get to participate in campus-wide activities. In addition, we have Sports Club, Student Clubs and International Student Associations, led by students; learning the fine art of balancing studies and co-curricular activities. Too shy to make new friends? Fret not! Connect+ is an integration programme which focuses on forging friendships among students. Not only will students get to make friends among fellow new students, they also learn about thriving in a multi-cultural learning environment.

Artist impression of our Future Academy

Student Service Excellence

Taking care of our students is our first priority. We offer a range of services that helps our students develop skills. "Personal Counselling" with a qualified counsellor helps students address and cope with emotional, interpersonal and learning issues. "Disability Support" assists students with specific conditions which require additional academic accommodation during their course of study. Academically, as part of our effort to assist students to excel, our full-time Academics offer additional consultation hours beyond scheduled tutorials and lectures for students who need clarification either via email or face-to-face. We also have the "Academic Excellence" programme available to full-time Diploma students to enhance every student's skill set to achieve better results.

Teaching Excellence

We are constantly in the pursuit of teaching excellence, mentoring students to become effective learners and leaders. At PSB Academy, we have more than 300 lecturers, full-time and part-time associates, with relevant industry experience to deliver lessons to over 11,000 students every year. It is our aim and commitment to provide necessary academic support and assistance to help our students succeed. An appropriate teacher-student ratio will enhance and/or improve the learning experience of every student.

Holistic Learning Experience

We believe in helping every student achieve their potential beyond academic results. At PSB Academy, we take pride in having a host of programmes and activities that will help new students assimilate comfortably in their journey with us. In addition, they gain life skills that will enhance their advantage in the competitive global market. Besides, our dedicated lecturers are available for consultation after class to guide students on any further clarifications.

Artist impression of our Future Academy

Accommodation

For international students who are looking for an environment that fosters a sense of community, they are encouraged to stay at Dorms by PSB Academy. In partnership with yo:HA Hostel, we are offering quality accommodation options at affordable fees to new international students. For more information about the accommodation options and location of the Dorm, please email dorms@psb-academy.edu.sg

Career Headstart and Networking Opportunities

PSB Academy aims to prepare and groom students ready for the workforce. Our Career Services team organises career preparation programmes to assist full-time graduating students embark on their job search. Career workshops such as resume writing, interviewing skills, are organised. We also work closely with employers; the Career Portal is an ideal platform for students to upload their resumes, and for employers to shortlist potential candidates. In addition, Career Fair are held within campus also allows graduating students to meet prospective employers.

To facilitate networking opportunities, we also encourage our graduates to stay connected with PSB Academy by being part of the Alumni Family. Networking events are also open to students to interact with our alumni for exchanges of ideas.

Well Equipped Facilities

Our campus houses lecture rooms that are fully equipped with LCD projectors, electronic visualisers and wireless audio systems. For a more hands-on learning environment for students, the campus is equipped with PC and Mac computer laboratories including other laboratories for engineering, sports, chemistry and life sciences.

The Learning Resource Centre provides our students with comprehensive reading resources and is a place for self-study. Our fully air-conditioned Student Hub is an ideal location for project work and group discussions. We also have a cafeteria and a bookstore to cater to our students' needs. For indoor sports enthusiasts, an indoor gym and multi-purpose hall are venues for exercise and activities; and outdoor sports lovers can make the most of the basketball and street soccer courts. Students can also stay connected on our WIFI-enabled campus network.

Artist impression of our Future Academy

Alumni Mentorship Programme

The new Student-Alumni Mentoring Programme at PSB Academy strengthens the connection between students and graduates. This is a volunteer programme which provides a platform for experienced alumni from diverse backgrounds to prepare student mentees for the professional world and exposure to the realities of different industries, challenges and rewards in respective fields. It also offers opportunities to develop business contacts and gain mutually beneficial mentor-mentee experiences. Currently, there are six alumni, from different backgrounds and industries, on board as mentors.

Please visit our Career Portal for more information.

HEAR FROM OUR STUDENT COUNCIL 2015/2016

Anthony Setiawan
President, Campus Wide Events

"This is my second year of stepping up as a student leader and yes, I made a right choice. Being a student leader in PSB Academy encourages me to improve skills such as time management, networking and team work. Besides that, the multicultural community in PSB Academy taught me a lot of unique things from different perception across various nationalities. Since my time with MAPIA (Indonesian Student Association), I had a very amazing and memorable journey from organising collaborative events with ISAs, Clubs and PSB Student Affairs & Industry Engagement team. This is a once-in-a-life time experience no where else can offer."

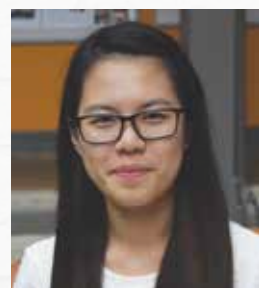

Kevin
Vice President, Community Responsibility

"The student life in PSB Academy is absolutely amazing. The activities from each country deeply show the story of their own uniqueness. The students are engaging and enthusiastic. Regardless of nationalities, all students bonded and got to know each other quickly through the activities held. It was really an unforgettable experience and journey as a student leader for the past 2 years."

Kim Yu Jeong
Vice President, Welcome Buddy

"Feeling proud to be able to share Korean culture to schoolmates and stay connected with students from other countries as well as engaging Korean students in PSB Academy. It was memorable to be close with foreign friends. I learned how to communicate with people from different cultures and languages. Language differences is not a barrier for me anymore! "

Low Yan Ting, Hilda
Vice President, Collaborative Learning

"This year, PSB Academy Student Life structure underwent a change, with the Student Council being made up of the various clubs and associations' Presidents, and the main committee being voted in by the student councillors. It is a good change, to integrate our previously discrete student bodies into one, encouraging collaborations and understanding. As this will be the last time I am able to take up the responsibility and be actively participating in student life activities, I truly cherish the time I spent with my members. One thing I have learned during this student leader journey, was knowing when to give space, and when to occupy space. Every member has different priorities and knowing what their priority is, helped me as the club president to involve them on various levels. Students in PSB Academy should definitely check out our student-led activities as these make up a meaningful and memorable school experience."

"What I have gained from experiencing the roles of leadership at PSB Academy are management skills, connection and healthy lifestyle. I'm able to learn how to accommodate the club members while enjoying myself with many activities created by PSB Academy Student Clubs and Associations. University life is not solely about getting a degree, but we need to manage our own mental and physical healths which are considered to be one of the most important factors to achieve our life goals."

- *Boonyakorn Amornsank, President, Badminton Club*

"The challenge of leadership is to be strong, but not rude; be kind, but not weak; be bold, but not bully; be thoughtful, but not lazy; be humble, but not timid; be proud, but not arrogant; have humour, but without folly"

- *Wang Hansen, President, Chinese Student Association*

"During these period of time, new challenges are unavoidable. However, with strength and dedication, we can take on this challenge and overcome it!"

- *Alexis Vinly, President, Dance Club,*

"If 'Plan A' did not work, the Alphabet has 25 more letters. Never give up and Stay Cool."

- *Catherine Salim, Vice President, Indonesian Student Association*

“Cherish your everyday in PSB Academy, and you will never believe how much achievements and experiences you could gain from this portal. Make today so awesome, yesterday gets jealous!”

- On-amon Chungpaiboon, President, Thai-Lao Student Association

“PSB Academy provides a platform for students to apply their leadership skills in organising activities and managing a team. The most memorable experience for me was organising the steamboat event in PSB Academy and seeing the students having a blast at the event. Stay positive! Work hard and make the dream work!”

- Jason Lee, President, Malaysian Student Association

“It’s such an honour to have the opportunity to lead the music club. I found many students with common passion as mine and grow together not only in academic performance but also in musicality. I hope the future of music club can be as strong as the present or even better. **Music is a universal language.**”

- Lumlertluksanachai Yotsapat, President, Music Club

“Being a Student Leader in PSB Academy was one of my best experiences, as it helped me to grow as a leader. My key takeaway for 2015/2016 would be the experience to work with students from different nationalities. As the President of SASA, managing 20-25 students (in SASA) was not an easy task. I made mistakes but learned a lot from them. For me, the most memorable experience is when we won the bidding for ‘ONE WORLD FESTIVAL’. In the history of SASA, we have never collaborated with more than one ISA and club for such a big event. Good luck for the upcoming student leaders of all ISA/ Clubs.”

- Pranav Pokhriyal, President, South Asian Student Association

“PSB Academy had given me the opportunities to build my network and confidence in communicating with others. The most memorable experience for me is “One World Festival” as it was a fun and meaningful collaboration event. Through the events we had organised, I have learned the responsibility of being in a team, the importance of time management and problem solving skills. Journey as a student leader had prepared me for the future working world. Thanks STA team for the continuous support!”

- Tran Thi Ngoc Van, President, Vietnamese Student Association

“My key takeaway for 2015/2016 is definitely the experience I’ve gained through meeting people from other countries. I have made a lot of great friends whom I cherish and will forever be kept close to heart. My most memorable experience in PSB Academy will be those events that required us to work as a team and understand the differences.”

- Nursariza Binte Abdul Samad, President, Singaporean Student Association

OUR SCHOOLS

SCHOOL OF BUSINESS MANAGEMENT

The School of Business Management aims to groom industry-ready graduates, equipped with the knowledge and skills needed to understand and solve business challenges. Students will be able to hone practical and analytical abilities, and integrate conceptual and applied knowledge to examine issues specific to the major of study as well as socio-economic challenges faced by the business world. A comprehensive range of diploma and degree programmes in disciplines ranging from business administration, human resource management, hospitality and tourism to finance and accounting. Graduates will be able to apply the knowledge acquired in business environments as all courses are designed based on the needs of the industry to ensure relevance at work.

SCHOOL OF ENGINEERING AND TECHNOLOGY

The School of Engineering and Technology drives the future by shaping elite generations of global nation-builders and digital think tanks. We offer courses ranging from mechanical, electrical and electronics engineering, computer science and information technology to environmental & occupational health & safety, from reputable university partners from Australia and the United Kingdom. The School of Engineering and Technology has well-equipped labs and facilities to provide you with the opportunity to apply theoretical knowledge with industry-ready hands-on experiences.

SCHOOL OF LIFE AND PHYSICAL SCIENCES

The School of Life and Physical Sciences offers a wide variety of courses ranging from certificates and diplomas to undergraduate degrees with reputable university partners from Australia and the United Kingdom. The School has invested heavily in the provision of university laboratory facilities where students have the opportunity to engage in hands-on, practical learning in the areas of Life Science, Chemistry and Sports Science. These laboratories permit students to gain first-hand experience in the use of modern scientific technologies and techniques which are designed to support practical education in a wide variety of study areas.

SCHOOL OF POSTGRADUATE STUDIES

The School of Postgraduate Studies aims to lead the future through thought leadership in business management. We provide an inclusive and conducive environment where professionals can advance their learning and professional connections, while studying towards postgraduate qualifications that are awarded by our premier universities from the UK and Australia. Our programmes include a Master of Business Administration awarded by an internationally accredited (AACSB) business school and other business management qualifications. We are also delighted to launch our new Master of Science in Engineering Business Management, which aims to equip engineers with management skill sets for higher responsibilities.

SCHOOL OF ENGLISH AND EDUCATION

The School of English and Education aims to help international students develop a proficiency in English for academic purposes. Varying levels of ESL classes help students of varying levels of aptitude. Lessons are designed with experiential learning journeys and interactive activities that focus on listening, reading, writing and oral proficiency. The School also runs summer and winter study tours and workshops on teacher development.

SCHOOL OF BUSINESS MANAGEMENT

“I have learnt a lot about Business Communication, Marketing, Accounting, and Economics. The teachers gave us a lot of practical examples in class, not just theory that we have to remember during a period of time, but for our whole life.”

Joanne Mary Gabrielle

Assessment of this programme may include assignments, tests, projects and final examinations.

Module

- Accounting for Decision Makers
- Advertising and Promotion Strategy
- Business Decision Making
- Business Strategy
- Consumer Behaviour
- Elective 1
- Elective 2
- Finance
- Foundations of Law
- Information and Communication in Business
- International Marketing
- Introduction to Human Resource Management
- Leadership and Entrepreneurship
- Macroeconomics in the Global Economy
- Managing Organisational Change
- Managing the Organisation
- Marketing Research
- Microeconomics for Business Decisions
- Organisational Structures and Design
- Organisations, Politics and Society
- Principles of Marketing
- Services Marketing
- Strategic Marketing Management
- Tourism Marketing

Career Opportunities

- Retail Management
- Advertising and Promotion
- Business Management
- Marketing, etc.

Bachelor of Commerce

Awarded by The University of Newcastle, Australia

The Bachelor of Commerce with a major in Accounting is your first step to becoming a fully qualified accountant. This programme embodies solid theoretical studies that are complemented with real-world applications. As accountancy is at the very heart of all

organisations, you will find the programme offers enormous scope and opportunities. Graduates may apply for associate membership of CPA (Australia) and for entry to the CA Programme of the Institute of Chartered Accountants in Australia.

Programme Duration

This full-time programme can be completed within 16 - 24 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations

Module

- Accounting for Decision Makers
- Accounting Practice
- Accounting Theory
- Advanced Management Accounting
- Auditing and Assurance
- Business Decision Making
- Business Strategy
- Company Accounting
- Elective 1
- Elective 2
- Finance
- Financial Accounting
- Foundations of Law
- Information and Communication in Business
- Issues in Financial Accounting
- Law of Business Organisations
- Leadership and Entrepreneurship
- Macroeconomics in the Global Economy
- Management Accounting
- Managing the Organisation
- Microeconomics for Business Decisions
- Organisations, Politics and Society
- Principles of Marketing
- Taxation

Career Opportunities

- Business Administration
- Auditing
- Accounting
- Taxation, etc.

Bachelor of Communication

Awarded by The University of Newcastle, Australia

The Bachelor of Communication with a major in Public Relations and Journalism prepares students to work creatively and analytically in the communication and cultural industries, and for further study and research in the discipline. Graduates will have an understanding of the theory practice continuum that operates within communication, and will be critically and analytically aware of the cultural, economic and social significance of communication in a complex and rapidly changing global environment.

Programme Duration

This full-time programme can be completed within 16 - 24 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations.

Module

- Advanced Public Relations Studies
- Audience Studies
- Communication & Discourse
- Communication, Creativity and Cultural Production
- Developing Multimedia Publications
- Elective 1
- Elective 2
- Feature Writing
- Foundations of Media Production
- International Media Studies
- Introduction to Communication Theory
- Introduction to Digital Communication
- Introduction to Journalism
- Introduction to Professional Writing
- Introduction to Public Relations
- Journalism
- Media, Law, Ethics
- Media, Structures and Practices
- Public Relations Strategy
- Public Affairs and Communication
- Public Relations Campaigns
- Public Relations Writing
- Radio Journalism
- Television Journalism

Career Opportunities

- Public Relations
- Radio Broadcasting and Journalism
- Professional and Creative Writing
- Marketing Communication, etc.

“If you’re facing challenges in your studies – just hang in there. Overcome it and it will give you the power to deal with so many other issues in life.”

UNIVERSITY
OF WOLLONGONG
AUSTRALIA

CRICOS Provider Code 00102E

Bachelor of Commerce (Finance)

Awarded by University of Wollongong, Australia

Finance is about money and investments. People on their own and in partnerships, companies and other entities (including state and federal governments), have a common objective of profitable investment. What is a government-secured bond? What is a share? What are the reasons for investing in either...and when's the right time? These are some of the questions answered in the domain of finance.

Programme Duration

This full-time programme can be completed within 16 - 24 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations.

Module

- Accounting Fundamentals in Society
- Introduction to Management
- Macroeconomics Essentials for Business
- Principles of Responsible Commerce
- Accounting in Organisations
- Introductory Principles of Finance
- Marketing Principles
- Statistics for Business
- Corporate Finance
- Financial Accounting IIA
- Financial Markets and Institutions
- Organisational Behaviour
- Financial Modelling
- Investment Analysis
- Management and Electronic Business
- Management of Change
- Advanced Corporate Finance
- International Marketing
- Portfolio Analysis
- Responsible Leadership
- Simulation of a Socially Innovative Enterprise
- International Finance
- Strategic Management
- Continuous Quality Improvement

Career Opportunities

- Banking
- Corporate Finance
- Equities
- Investment Analysis, etc.

Bachelor of Commerce (Management & Marketing)

Awarded by University of Wollongong, Australia

This degree is designed for students who would like to undertake a degree in the principle areas of business and commerce. It is suitable

preparation for students who would like to become professionals in a Management and Marketing. The degree consists of compulsory core subjects including a capstone subject and will be taken with a double major in Management and Marketing. The aim is to provide a foundation for the understanding of the business and commercial environment.

Programme Duration

This full-time programme can be completed within 16 - 24 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations.

Module

- Accounting for Decision Makers
- Advertising and Promotion Strategy
- Business Decision Making
- Business Strategy
- Consumer Behaviour
- Elective 1
- Elective 2
- Finance
- Foundations of Law
- Information and Communication in Business
- International Marketing
- Introduction to Human Resource Management
- Leadership and Entrepreneurship
- Macroeconomics in the Global Economy
- Managing Organisational Change
- Managing the Organisation
- Marketing Research
- Microeconomics for Business Decisions
- Organisational Structures and Design
- Organisations, Politics and Society
- Principles of Marketing
- Services Marketing
- Strategic Marketing Management
- Tourism Marketing

Career Opportunities

- Market Researcher
- Strategic Development Executive
- Operations Manager
- Product Manager
- Customer Service Manager

Bachelor of Commerce (Supply Chain Management)

University of Wollongong, Australia

Supply Chain Management is concerned with the entire lifecycle of a product or service, from before it's made, to how it is disposed of and how it moves between every stage. As well as goods and services, supply chain managers analyse and manage information from the suppliers, through intermediaries, to the customer—and their customers, if your client is a business. It includes managing technical processes: both within the firm between functions such as procurement, manufacturing and marketing; and between organisations such as manufacturers, distributors, wholesalers and retailers.

Programme Duration

This full-time programme can be completed within 16 - 24 months.

Mode of Assessment

Assessments for this programme include assignments and written exams.

Module

- Accounting Fundamentals in Society
- Introduction to Management
- Macroeconomics Essentials for Business
- Principles of Responsible Commerce
- Accounting in Organisations
- Introductory Principles of Finance
- Marketing Principles
- Statistics for Business
- Consumer Behaviour
- Introductory Marketing Research
- Management and Electronic Business
- Systems Thinking & Simulation
- Logistics Management
- Management of Change
- Principles of Supply Chain Management
- Services Marketing
- International Marketing
- Operations Management
- Responsible Leadership
- Supply Chain Strategies
- Continuous Quality Improvement
- International Finance
- Simulation of a Socially Innovative Enterprise
- Strategic Management

Career Opportunities

- Logistics
- Procurement and Compliance
- Sourcing
- Services Marketing, etc.

Bachelor of Commerce (Finance)
University of Wollongong (Full-time)

Bachelor of Arts with Honours in Accounting and Finance

Awarded by Coventry University, UK

The Bachelor of Arts with Honours in Accounting and Finance degree has been designed in line with the University's mission statement. It seeks to develop innovation and enterprise amongst the students, whilst offering them an international experience and the opportunity to further develop their employability skills through a wide range of appropriate placement opportunities.

Programme Duration

This full-time programme can be completed within 16 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations.

Module

Degree Modules (Compulsory)

- Advanced Study for Accounting and Finance
- Audit and Internal Control
- Corporate Financial Management
- Decision Management
- Economics of Banking and Finance
- Financial Reporting and Analysis
- International Corporate Reporting
- International Finance
- Performance Management
- Principles of Financial Investment
- Principles of Taxation
- Professional and Academic Competencies

Career Opportunities

- Business Administration
- Banking and Finance
- Accounting
- Taxation, etc.

Bachelor of Arts with Honours in Business and Finance

Awarded by Coventry University, UK

The Bachelor of Arts with Honours in Business and Finance degree has been designed to offer students an understanding of the wider business and finance environment. The programme offers students the opportunity to develop key business skills, explore innovative practices, and develop entrepreneurial skills.

Programme Duration

This full-time programme can be completed within 16 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations.

Degree Modules (Compulsory)

- Advanced Issues in Banking
- Advanced Study for Accounting and Finance
- Investment Analysis
- Business Accounting
- Business Management
- Corporate Financial Management
- Corporate Strategic Management
- Economics of Banking and Finance
- International Finance
- Marketing Planning
- Principles of Financial Investment
- Professional and Academic Competencies

Career Opportunities

- Business Management
- International Finance
- Marketing
- Equities Research, etc.

Bachelor of Arts with Honours in Business and Marketing

Awarded by Coventry University, UK

The Bachelor of Arts with Honours in Business and Marketing is the same as that offered at the UK home campus.

The course provides a sound grounding in the following core themes: Business, Marketing, Communications, and Research.

Programme Duration

This full-time programme can be completed within 16 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations.

Module

Degree Modules (Compulsory)

- Advanced Marketing Study (Project)
- Brand and Corporate Communications
- Campaign Management
- Career Preparation
- Contemporary Issues in HR Service Delivery
- Contemporary Marketing Issues
- Corporate Marketing Strategy
- Effective Communication Skills 2
- Exploring Entrepreneurship
- Managing Business
- Managing Organisational Change
- Marketing Management
- Marketing Research II

Career Opportunities

- Market Researcher
- Strategic Development Executive
- Operations Manager
- Product Manager
- Customer Service Manager

Bachelor of Arts Festival and Event Management

Awarded by Edinburgh Napier University, UK

This programme is designed to provide students with a coherent and vocationally relevant curriculum that will equip them for a career in festival and event management and related service sectors. Students will be equipped with a good understanding of general business and management skills to become an effective manager of people and resources.

Programme Duration

This full-time programme can be completed within 16 months.

Mode of Assessment

Modules are assessed by a mixture of examinations, written course work and presentations.

Module

- Business and Management Challenges
- Conference Management
- Customer Service & Care
- Event Management
- Facilities Planning for Hospitality Tourism and Events
- Hospitality Supervision and Training Skills
- Impacts of Festivals and Events
- Planning and Public Policy for Festivals and Events
- Service Management
- Sports Event Tourism
- Transport for Tourism
- Visitor Attraction Management

Career Opportunities

- International Festival and Event Management
- Customer Service
- Service Management
- Tourism and Management, etc.

Bachelor of Arts Hospitality and Tourism Management

Awarded by Edinburgh Napier University, UK

This programme is designed for students who wish to pursue a career in the hospitality and tourism industries. Graduates will understand that the customer is at the heart of any hospitality or tourism business.

Programme Duration

This full-time programme can be completed within 12 months.

Mode of Assessment

Modules are assessed by a mixture of examinations, written course work and presentations.

Module

- Business and Management Challenges
- Customer Service and Care
- Facilities Planning for Hospitality Tourism and Events
- Hospitality Business Development
- Hospitality Supervision and Training Skills
- International Tourism Policy and Planning
- Service Management
- Sports Event Tourism
- The Study of Food and Wine
- Tourism Impacts
- Transport for Tourism
- Visitor Attraction Management

Career Opportunities

- Retail Management
- Customer Service
- Service Management
- Tourism and Management, etc.

Progression Pathway

Upon completion of the Bachelor's degree, students can pursue a Master's degree programme with our renowned university partners at PSB Academy (subject to meeting the university's entry requirements)

For detailed progression pathway, please refer to Progression Pathway on page 45-46.

SCHOOL OF ENGINEERING AND TECHNOLOGY

Diploma in Electrical Engineering Technology

Awarded by PSB Academy

Electrical engineering technologists provide technical support and services in the design, development, testing, production and operation of electrical and electronic equipment and systems. They are employed by electrical utilities, communications companies, manufacturers of electrical and electronic equipment, consulting firms, government sectors and a wide range of manufacturing, processing and transportation industries.

Programme Duration

This full-time programme can be completed within 9 - 12 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations.

Module

Bridging Modules (If required)

- Effective Communication
- Foundation Mathematics
- Foundation Engineering Physics

Core Modules

- Circuit Theory and Analysis
- Communication and Information Systems
- Electrical and Electronic Principles 1
- Electrical and Electronic Principles 2
- Engineering Mathematics 1
- Engineering Mathematics 2
- Fundamentals of Programming
- Research Project

Career Opportunities

- Electrical Assistant
- Technician
- System Engineer etc

Diploma in Mechanical Engineering Technology

Awarded by PSB Academy

Mechanical engineering technologists provide technical support and services in the mechanical engineering field such as the design, development, maintenance and testing of machines such as components, heating and ventilating systems, power generation and conversion plants, manufacturing plants and equipment. They are employed by consulting and engineering firms, manufacturing and processing companies, educational institutions and many other sectors.

Programme Duration

This full-time programme can be completed within 9 - 12 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations.

Module

Bridging Modules (If required)

- Effective Communication
- Foundation Mathematics
- Foundation Engineering Physics

Core Modules

- Electrical and Electronic Principles 1
- Engineering Computation and Drawing
- Engineering Materials and Manufacturing Processes
- Engineering Mathematics 1
- Engineering Mathematics 2
- Mechanical Design and Engineering Applications
- Mechanical Science
- Strength of Materials

Career Opportunities

- Mechanical Assistant
- Technician
- System Engineer etc

*“PSB Academy’s
comprehensive curriculum,
excellent faculty and
vibrant campus life have
made for a very interesting
experience for me.”*

PSB Academy (Full-time)

Diploma in InfoComm Technology

Awarded by PSB Academy

This programme aims to provide students with a strong basic foundation to develop relevant applications for businesses and public organisations. Students will be equipped with the essential knowledge of business processes and technical skills required to harness the power of information and communication technologies. They will also be able to adopt the good practices in Software Engineering to analyse, design, develop and implement effective information systems to support various industries' information needs.

Programme Duration

This full-time programme can be completed within 9 - 12 months.

Mode of Assessment

Assessment of this programme may include assignments, tests, projects and final examinations.

Module

Bridging Modules (If required)

- Foundation Mathematics
- Fundamentals of Programming
- Information Systems

Core Modules

- Applied Communication
- Data Communication and Networking
- Database Design and Modelling
- Discrete Mathematics
- Information Systems and the Organisations
- Introduction to Computer and Operating Systems
- Introduction to Software Engineering
- Introduction to Programming

Career Opportunities

- Business Analyst
- Technician
- Systems Engineer etc

Progression Pathway

Upon completion of the PSB Academy-awarded Diploma, students can pursue a Bachelor's degree programme with our renowned university partners at PSB Academy (subject to meeting the university's entry requirements)

For detailed progression pathway, please refer to Progression Pathway on page 45-46.

Bachelor of Engineering (Honours) (Electrical)

Awarded by The University of Newcastle, Australia

Electrical Engineering is the science of power generation and distribution, signal processing, analogue and digital electronics. It is crucial to the smooth running of any developed nation and is becoming increasingly vital in countries working to improve their capacity in new and emerging technologies.

Programme Duration

This full-time programme can be completed within 36 months.

Mode of Assessment

Assessment for this programme may include assignments, tests, projects and final examinations.

Students must complete an equivalent of 12 weeks industry experience during their programme. Please check <http://www.newcastle.edu.au> website for more information.

Module

- Advanced Physics 1
- Advanced Physics 2
- Analog and Digital Communications
- Automatic Control
- Calculus of Science and Engineering
- Computer Engineering 1
- Computer Engineering 2
- Elective 1
- Elective 2
- Electrical Engineering 1
- Electric Energy Systems
- Electrical Circuits
- Electrical Systems
- Electronics
- Electronics Design
- Embedded Systems
- Engineering Mathematics
- Electric Machines and Power Systems
- Engineering Project Management
- Ethics, Technology and Engineering
- Final Year Project - Part A
- Final Year Project - Part B
- Industrial Experience Placement
- Introduction to Electrical Engineering Design
- Introduction to Engineering Practice
- Introduction to Procedural Programming
- Mathematics 1
- Mathematics 2
- Programmable Logic Design
- Quantum Mechanics and Semiconductor Physics
- Signal Processing
- Signals and Systems

Career Opportunities

- Engineering Specialist
- Electrical Engineer
- Product Safety Engineer
- Research Engineer
- Production Manager etc

Bachelor of Engineering (Honours) (Mechanical)

Awarded by The University of Newcastle, Australia

Mechanical Engineering is the broadest of all engineering disciplines. It is concerned with the design, manufacture, operation and maintenance of mechanical devices, equipment and systems. The mechanical programme offers a sound introduction to the fundamental principles of engineering science and practice.

Programme Duration

This full-time programme can be completed within 36 months.

Mode of Assessment

Assessment for this programme may include assignments, tests, projects and final examinations.

Students must complete an equivalent of 12 weeks industry experience during their programme. Please check <http://www.newcastle.edu.au> website for more information.

Module

- Advanced Computer Aided Engineering and Manufacturing
- Applied Engineering Thermodynamics
- Automatic Control
- Calculus of Science and Engineering
- Computational Mechanics
- Computer Aided Engineering
- Dynamics 2
- Elective 1
- Elective 2
- Electrical Engineering 1
- Engineering Computations 2
- Engineering Economic Analysis
- Engineering Mechanics
- Engineering Project Management
- Ethics, Technology and Engineering
- Industrial Experience Placement
- Integrated Physics
- Introduction to Engineering Practice
- Introduction to Procedural Programming
- Materials Science and Engineering 1
- Materials Science and Engineering 2
- Mathematics 1
- Mathematics 2
- Mechanical Engineering Design 1
- Mechanical Engineering Design 2
- Mechanical Engineering Project A
- Mechanical Engineering Project B
- Mechanics of Solids
- Mechatronic Systems
- Thermofluids
- Transport Phenomena

Career Opportunities

- Engineering Specialist
- Mechanical Engineer
- Product Safety Engineer
- Research Engineer
- Production Manager etc

Bachelor of Information Technology

Awarded by The University of Newcastle, Australia

The combination of Enterprise Information Technology and Software Development & Applications in this programme ensures that you will have the skills to develop application solutions and build robust business systems. You will be exposed to the use of IT in various settings, concentrating on traditional business uses of IT.

Programme Duration

This full-time programme can be completed within 16 - 24 months.

Mode of Assessment

Assessment for this programme may include assignments, tests, projects and final examinations.

Module

- Applications Programming
- Business Analysis
- Business Decision Making
- Business Strategy
- Contemporary Issues in Information Technology
- Database Management Systems
- Foundations of Information Technology
- Games Production
- Information & Communication in Business
- Internet Communications
- Introduction to Procedural Programming
- Introduction to Programming
- IT Major Project
- Managing Organisational Change
- Managing the Organisation
- Organisational Structures and Design
- Project Management
- Systems and Network Administration
- Systems Modelling
- The Digital Economy
- The Information Resource
- Web Multimedia
- Web Programming

Career Opportunities

- Associate Engineer
- Controls Engineer
- Technology Analyst
- Software Engineer
- Research Engineer etc

Bachelor of Engineering with Honours in Electrical and Electronic Engineering

Awarded by Coventry University, UK

The Bachelor of Engineering with Honours in Electrical and Electronic Engineering degree allows you access to the latest technologies in the fields of electrical and electronic engineering, with an emphasises on innovation, design and development, which will encompass technical and transferable skills.

By acquiring the necessary depth of knowledge you will develop high-quality solutions to engineering problems.

Programme Duration

This full-time programme can be completed within 16 months.

Mode of Assessment

Assessment for this programme may include assignments, tests, projects and final examinations.

Module

- Academic Writing Skills 3
- Advanced Control Systems
- Advanced Digital Systems
- Advanced Electronics
- Analogue and Digital Electronics 2
- Effective Communication Skills 2
- Electrical Engineering 2
- Embedded Microprocessors Group Project
- Engineering Mathematics 2
- Electrical Power Systems
- Individual Project
- Linear Control Systems

Career Opportunities

- Engineering Specialist
- Electrical Engineer
- Quality Engineer
- Product Safety Engineer
- Research Engineer
- Production Manager etc

Bachelor of Engineering with Honours in Mechanical Engineering

Awarded by Coventry University, UK

Mechanical Engineering is the basis for many engineering disciplines including the automotive, aero, marine and medical sectors. Study in this field can lead to a vast range of employment opportunities and routes for postgraduate study. This programme will equip you with the skills and capabilities for you to make a significant and early contribution to industry and society and set you on the path to be a Chartered Engineer. You will develop an in-depth knowledge of the essential technical subjects, along with the personal skills necessary to progress your career to a leadership role in industry.

Programme Duration

This full-time programme can be completed within 16 months.

Mode of Assessment

Assessment for this programme may include assignments, tests, projects and final examinations.

Module

- Academic Writing 3
- Analytical Modelling
- Design and Sustainability
- Effective Communication Skills 2
- Engineering Management
- Finite Element Analysis
- Fluid Mechanics
- Individual project
- Instrumentation and Control
- Mechanical Product Innovation
- Professional Development and Management
- Reliability and Durability
- Stress and Dynamic Analysis I
- Solid Mechanics and Dynamics
- Thermofluid Mechanics
- Thermodynamics III

Career Opportunities

- Application Engineer
- Engineering Specialist
- Mechanical Engineer
- Product Safety Engineer
- Research Engineer
- Production Manager
- Project Officer
- Product Development Engineer etc

Bachelor of Science with Honours in Computer Science

Awarded by Coventry University, UK

This course prepares graduates to embark on a career in the digital economy with the knowledge and skills to advance professionally in industry. Students get to learn and apply the latest and best software engineering methodology in real world projects and design well-crafted databases that support their IT solutions with the leading global database engines for relational and big data databases. Graduates of this course will be well positioned to ride the technology waves of the digital economy and harness the disruptive technology opportunities to practical business and competitive advantage.

Programme Duration

This full-time programme can be completed within 16 months.

Mode of Assessment

Assessment for this programme may include assignments, tests, projects and final examinations.

Module

- Academic Writing 3
- Data and Information Retrieval
- Effective Communication Skills 2
- Individual Project
- Open Source Development
- Operating Systems, Security and Networks
- Programming, Algorithms and Data Structures
- Rapid Application Development
- Real World Project
- Software Engineering
- Software Quality and Process Management
- Technology and its Social, Legal and Ethical Context
- Theoretical Aspects of Computer Science

Career Opportunities

- IT Engineer
- IT Executive
- Controls Engineer
- Network Engineer
- Systems Analyst
- Technology Analyst
- Software Engineer
- Web Developer etc

Progression Pathway

Upon completion of the Bachelor's degree, students can pursue a Master's degree programme with our renowned university partners at PSB Academy (subject to meeting the university's entry requirements)

For detailed progression pathway, please refer to Progression Pathway on page 45-46.

“I can get a UK University programme close to my home country and close to my family. With the state of-the-art facilities at PSB Academy, my learning was made fun and interesting.”

Abul Kalam Azad Anis Kamil Azraf
Indian
Current Student
Bachelor of Engineering with Honours
in Mechanical Engineering
Coventry University (Full-time)

SCHOOL OF LIFE AND PHYSICAL SCIENCE

Diploma in Sport and Exercise Sciences

Awarded by PSB Academy

This Diploma is accredited by the International Sports Professional Association (ISPA). The ISPA is the largest international accreditation body for professionals serving athletes and athletic communities worldwide. The ISPA is also a specialty certification authority best known for the creation of the first and only certification for healthcare providers whom treat and rehabilitate patients of workers' compensation (CWCHP). Students graduating from ISPA-accredited programmes are rewarded with excellent credentials for professional and career development.

Programme Outline and Duration

This programme consists of 8 modules, amounting to a total of 320 contact hours and can be completed within 9 months.

Mode of Assessment

Assessments may include assignments, tests, projects, reports, lab work and final examinations.

Programme Modules

- Biomechanics of Sport and Exercise
- Functional Anatomy
- Methods of Group Exercise Instruction
- Physiology of Sport & Exercise
- Principles of Weight Training
- Professional Studies
- Sport and Exercise Nutrition
- Sport and Exercise Psychology

Career Opportunities

- Sports Performance Assistant
- Health Consultant
- Sports Coach
- Fitness Programme Designer

Foundation Diploma in Life Sciences

Awarded by PSB Academy

The Foundation Diploma in Life Sciences programme aims to instil a firm foundation in the basic knowledge of Life Sciences, while developing the students' ability to think clearly and to express their ideas, whether verbally or in writing, with clarity and logic. The modules offered in this programme differ qualitatively from traditional biology, chemistry and mathematics, both in terms of teaching approach and the quality of time spent in the laboratory.

Programme Duration

This full-time programme can be completed within 6 months.

Mode of Assessment

Assessments may include assignments, tests, projects, reports, lab work and final examinations.

Modules

- Chemistry of Life
- Mathematics for Life Sciences
- Modern Biology
- Scientific Communications

Progression Pathway

Upon completion of the PSB Academy-awarded Diploma, students can pursue a Bachelor's degree programme with our renowned university partners at PSB Academy (subject to meeting the university's entry requirements)

For detailed progression pathway, please refer to Progression Pathway on page 45-46.

Bachelor of Biomedical Sciences

Awarded by La Trobe University, Australia

Biomedical science is the study of the human body, its structure and function in health and disease. Biomedical scientists require an understanding of medical biochemistry, microbiology, pharmacology, cell and molecular biology, physiology, infectious diseases and neuroscience. This course aims to give you a thorough understanding of human disorders and their underlying molecular basis.

Programme Duration

This full-time programme can be completed within 24 months.

Mode of Assessment

Assessments may include assignments, tests, projects, reports, lab work and final examinations.

Modules

- Advanced Biochemistry and Medical Biology Laboratory Course
- Advanced Topics in Biochemistry and Cell Biology
- Advanced Topics in Biochemistry and Molecular Biology 3A (Part 1)
- Advanced Topics in Biochemistry and Molecular Biology 3A (Part 2)
- Advanced Topics in Medical Science A (Part 1)
- Advanced Topics in Medical Science A (Part 2)
- Advanced Topics in Medical Science B
- Applications in Biomedical Science
- Chemistry 1A
- Chemistry 1B
- Clinical Biochemistry and Haematology
- Genetics, Human Biology and Evolution
- Group Project
- Introduction to Microbiology
- Introduction to Biochemistry and Molecular Biology
- Introduction to Biomedical Science
- Metabolic Biochemistry and Cell Biology
- Molecular and Human Genetics
- Organisation and Function of Cells and Organisms
- Organs and Organ Systems
- Pharmaceutical Formulation A
- Pharmacology A
- Pharmacology B
- Statistics for Life Sciences

Career Opportunities

- Biochemist
- Clinical Trials Administrator
- Scientific Policy Advisor
- Post-Graduate Medicine

Bachelor of Science (Molecular Biology)

Awarded by La Trobe University, Australia

Science seeks answers to some of the most significant questions facing humankind. The extent of climate change, the best medicines to treat cancer, the most effective ways to protect endangered animals - and many other challenges - all require answers from science.

Our Bachelor of Science (Molecular Biology) is a programme that provides students the opportunity to focus on subjects directly related to Molecular Biology as opposed to a generic science degree. This degree allows students to develop skills that are highly regarded and highly valued in the biotechnology and medical bioscience industries

Programme Outline and Duration

This full-time programme can be completed within 24 months.

Mode of Assessment

Assessments may include assignments, tests, projects, reports, lab work and final examinations.

Programme Modules

- Advanced Biochemistry and Medical Biology Laboratory Course
- Advanced Topics in Biochemistry and Cell Biology
- Advanced Topics in Biochemistry and Molecular Biology 3A (Part 1)
- Advanced Topics in Biochemistry and Molecular Biology 3A (Part 2)
- Applications of Biotechnology
- Chemistry 1A
- Chemistry 1B
- Clinical Biochemistry and Haematology
- Genetics, Human Biology and Evolution
- Group Project
- Human and Molecular Genetics (Part 1)
- Human and Molecular Genetics (Part 2)
- Introduction to Biochemistry and Molecular Biology
- Introduction to Microbiology
- Introduction to Biomedical Science
- Mathematical Applications in Biology
- Measurement and Observation
- Metabolic Biochemistry and Cell Biology
- Molecular and Human Genetics
- Organisation and Function of Cells and Organisms
- Organs and Organ Systems
- Pharmacology A
- Pharmacology B
- Statistics for Life Sciences

Career Opportunities

- Medical Technologist
- Product Specialist
- Quality Control Supervisor
- Scientific Writer/Editor

Bachelor of Science (Pharmaceutical Science)

Awarded by La Trobe University, Australia

Science seeks answers to some of the most significant questions facing humankind. The extent of climate change, the best medicines to treat cancer, the most effective ways to protect endangered animals - and many other challenges - all require answers from science. Our Bachelor of Science (Pharmaceutical Science) is a course that provides students the opportunity to focus on subjects directly related to formulation science, medicinal chemistry, pharmacology and therapeutics as opposed to a generic science degree.

Programme Outline and Duration

This full-time programme can be completed within 24 months.

Mode of Assessment

Assessments may include assignments, tests, projects, reports, lab work and final examinations.

Programme Modules

- Advanced Topics in Medical Science A (Part 1)
- Advanced Topics in Medical Science A (Part 2)
- Advanced Topics in Medical Science B
- Applications of Biomedical Science
- Applications of Biotechnology
- Biopharmaceutics
- Chemical Analysis
- Chemistry 1A
- Chemistry 1B
- Clinical Biochemistry and Haematology
- Genetics, Human Biology and Evolution
- Group Project
- Introduction to Microbiology
- Introduction to Biochemistry and Molecular Biology
- Introduction to Biomedical Science
- Measurement and Observation
- Medicinal Chemistry A
- Metabolic Biochemistry and Cell Biology
- Organisation and Function of Cells and Organisms
- Organs and Organ Systems
- Pharmaceutical Formulation A
- Pharmacology A
- Pharmacology B
- Statistics for Life Sciences

Career Opportunities

- Pharmaceutical Technician
- Medicinal Chemist
- Drug Trials Administrator
- Scientific Writer/Editor

Progression Pathway

Upon completion of the Bachelor's degree, students can pursue a Master's degree programme with our renowned university partners at PSB Academy (subject to meeting the university's entry requirements)

For detailed progression pathway, please refer to Progression Pathway on page 45 - 46.

SCHOOL OF POSTGRADUATE STUDIES

Master of Business Administration

Awarded by The University of Newcastle, Australia

In partnership with The University of Newcastle, Australia, the School of Business is offering a full-time MBA at PSB Academy. The faculty staff at The University of Newcastle, Australia has been awarded national and international prizes for teaching, creativity, research and scholarship and has held visiting scholar positions at the world's foremost institutions.

In this programme, you will study contemporary principles and standards of critical reasoning and management and develop the skills to operate effectively in the international business community, with cross-cultural sensitivity and awareness.

Programme Duration

This full-time programme can be completed within 12 months.

Mode of Assessment

Assessment for this programme may include assignments, tests, projects and final examinations.

Module

- Accounting and Financial Management
- Corporate Governance and Social Responsibility
- Cross-Cultural Management
- Economics of Competitive Advantage
- Foundations of Business Analysis
- Globalisation
- Human Resource Management
- Managing HR in International Organisations
- Managing Under Uncertainty

Master of Science in Engineering Business Management

Awarded by Coventry University, UK

Global opportunities within industry make it essential that engineering management professionals keep up to date and develop their awareness and capabilities. This course aims to meet the needs of such graduates and professionals, who have acquired expertise in their field of engineering and now, wish to develop management skills to provide leadership and to contribute to a successful and competitive business. The course teaches students the key areas of business management theory, linking these to real life practice through the use of research, case studies and applied work, exploring different ways that management can significantly contribute to wealth creation, competitiveness, and to the advancement of society.

Programme Duration

This full-time programme can be completed within 12 months.

Certificate in English Proficiency (Advanced)

Awarded by PSB Academy

This Certificate in English Proficiency (Advanced) programme aims to develop your accuracy, facility and fluency in the appropriate use of English. You will learn speaking and listening skills at an advanced level, equipped for undergraduate and postgraduate studies.

Programme Outline and Duration

This full-time programme can be completed within 3 months.

Mode of Assessment

At the commencement of each module, students will be provided the assessment mode and weightings for the module. Most modules have several points of assessment, which may include assignments, tests, projects and final examinations.

Modules

Speaking and Listening

- Express ideas and thoughts in small group discussion in tutorial settings
- Prepare and deliver presentations
- Extract main and supporting information from a formal lecture presentation
- Understand formal and informal conversations or commentary on topics in academic and non-academic contexts

Reading

- Be equipped with the knowledge of academic vocabulary
- Demonstrate understanding of the structure and discourse of texts by extracting the relevant information and presenting them orally or in written form
- Read and comprehend articles of both academic and general interest

Writing

- Correctly use reference materials, following appropriate academic conventions
- Identify and create appropriate text types required for an academic task
- Plan, research and write research reports
- Paraphrase for referencing
- Write a range of complex sentences with a degree of grammatical accuracy

Progression Pathway

Upon completion of the certificate in English proficiency Level 5 programme, students can advance to our Diploma programmes awarded by PSB Academy.

Upon completion of certificate in English proficiency (Advanced) programme, students can pursue a Bachelor's degree programme with our renowned University partners at PSB Academy (subject to meeting the Universities' entry requirements).

For detailed progression pathway, please refer to Progression Pathway from page 45-46.

ADMISSION

1. 2 passport-size photographs with white background
2. 1 copy of passport (must have at least 1 year validity)
3. 1 copy of birth certificate
4. Notarised/Certified true copies of all your educational transcripts and completion certificates
5. Proof of English Proficiency; either IELTS/TOEFL scoresheet or a letter from your latest institution certifying that the medium of instruction was conducted in English
6. Letter from employer certifying period of employment (for postgraduate applicants only) Bank balance to show a minimum of S\$30,000 for students from visa-required countries (China, India, Myanmar, etc)

Note: Our appointed recruitment agent will advise you on the list of documents required for your application. Alternatively, please visit <http://www.psb-academy.edu.sg/prospective-students/international-applicants/how-to-apply/> for list of required documents.

STEP 2

Successful applicants will receive the following documents via email:

- A conditional/unconditional Letter of Offer
- Student Contract
- Instructions on Course Acceptance
- Form 12 – Advisory Note to Students

You will need to sign the Student Contract, and return documents to PSB Academy via email/post. Alternatively, you can also submit the documents to PSB Academy's recruitment partner in your home country.

STEP 3

Upon receipt of your signed Contract, PSB Academy will apply for your Student's Pass application to Singapore Immigration and Checkpoints Authority (ICA). Once your Student's Pass is approved by ICA (within 3-4 weeks), please make payment for the 1st fee instalment. You may refer to the "Instruction on Course Acceptance (International Students)" for more information on the various modes of fee payment and arrival in Singapore.

**All applicants must be age 16 years old and meet the English language proficiency requirements. Please note that these entry requirements are subject to review. If documents are not in English, authorised English translation must be included.*

PRIVATE EDUCATION ACT

Under the EduTrust Certification Scheme, we have adopted the Fee Protection Scheme with CPE-appointed service providers and provide medical insurance coverage for hospitalisation and related medical treatment for the entire programme duration.

FEE PROTECTION SCHEME (FPS)

PSB Academy had put in place the insurance arrangement to ensure that fees paid by students to the school are insured by a CPE-appointed service provider. The insurance protection serves to protect the students' fees in the event a private education institution (PEI) is unable to continue operations due to insolvency, and/or regulatory closure. Furthermore, the FPS protects the student if the PEI fails to pay penalties or return fees to the student arising from judgments made against it by the Singapore courts.

The FPS is compulsory for all local and international students taking courses in PEIs with EduTrust certification. FPS applies to all courses with course duration of more than one month or 50 hours. FPS insurance premiums are paid by PSB Academy, unless otherwise stated in the Student Contract which has to be paid by the student separately.

For more information, please refer to psb-academy.edu.sg/prospects-general-info

MEDICAL INSURANCE

PSB Academy provides a group student medical insurance for its full-time students as required by the Committee for Private Education under EduTrust certification scheme. This medical insurance scheme shall minimally provide for an annual coverage limit of not less than S\$20,000 per student, at least B2 ward in government and restructured hospitals and 24 hours coverage in Singapore and overseas (if student is involved in school-related activities) throughout the course duration.

Medical insurance is not applicable to part-time students and students taking courses with a duration of not more than one month or 50 hours.

For more information, please refer to psb-academy.edu.sg/prospects-general-info

WITHDRAWAL AND REFUND POLICY

For information on programme withdrawal, transfer and fee refund policies, please refer to your student contract or visit psb-academy.edu.sg/refund-policy
